Event Review: Legislative Day

Grades 7-9 participated in our Legislative Workshop this past week. Students visited seven different stations where they discussed the history of voting, the art of compromise, legislative vocabulary, the path a bill takes to become a law, the three branches of government, and more. They also researched local government leaders and discovered their representatives. We look forward to our virtual State Capitol Building tours later in the year.

Our 10th grade students spent the day learning all about city government and all that goes into keeping a city running. They had the chance to talk with Chip Dawson, the South Jordan City Treasurer, and ask him questions.
