### **Virtual Parent Empowerment: Mental Health & Wellness**

Among the many lessons learned during the last few years has been just how important it is to pay attention to our mental health and wellness as well as our physical health. In reality, our physical and mental health are intertwined. Many symptoms of mental illness emerge in the teenage-young adult years. Join us in our Virtual Parent Empowerment on Tuesday, November 12th at 7 pm as we explore what is mental health, how to identify symptoms of mental illness and how to get help, and the protective factors to help avoid serious issues. Your school may provide an incentive for participation. This topic is appropriate for students and parents so invite your students to participate with you. See you on zoom!
